

**Vorne** manufacturing improvement made easy

## Vorne XL - Fast Path to Improved Productivity

Thank you for your interest in the [XL Productivity Appliance](#).

XL is the simplest, fastest, and most cost-effective way to monitor any manufacturing process. That is one of the reasons it is used in over 20,000 manufacturing processes across 45 countries. Here are a few more:

- **No software to install**
- **No recurring fees**
- **Unlimited users**
- **Three-year warranty**
- **Includes technical support**
- **Includes software updates**

Over 1,000 companies have started their XL deployment with a 45-day trial. In fact, we encourage every new customer to start with a trial. At the end of the day – what

really matters is how well XL works for you.

Getting started is easy. Pick a convenient time for a 30- or 60-minute webinar (your choice) where we will explore your application and show you exactly how XL will help.
